Introduction

This Licensing Information document is a part of the product or program documentation under the terms of your Oracle license agreement and is intended to help you understand the program editions, entitlements, restrictions, prerequisites, special license rights, and/or separately licensed third party technology terms associated with the Oracle software program(s) covered by this document (the “Program(s)”). Entitled or restricted use products or components identified in this document that are not provided with the particular Program may be obtained from the Oracle Software Delivery Cloud website (https://edelivery.oracle.com) or from media Oracle may provide. If you have a question about your license rights and obligations, please contact your Oracle sales representative, review the information provided in Oracle’s Software Investment Guide (http://www.oracle.com/us/corporate/pricing/software-investment-guide/index.html), and/or contact the applicable Oracle License Management Services representative listed on http://www.oracle.com/us/corporate/license-management-services/index.html.

Licensed Products, Restricted Use Licenses, and Prerequisite Products

Certain Oracle licensed products require valid licenses for other Oracle products; licenses for these other Oracle products are included with your core license. Included licenses give you the rights to functionality limited to what is needed for your core licensed product; these are referred to as *Restricted Use Licenses*. In addition, some products require that you install other Oracle products; these are referred to as *Prerequisite Products*. The following topics identify what technologies are included within each core product license and also any other products you need to install in order to fully use the core product. Please see you Oracle Sales Representative for details.

Oracle Primavera Prime Capital Plan Management License

Restricted Use Licenses

The following restricted use licenses are included with your Oracle Primavera Prime Capital Plan Management license:

- Primavera Gateway for the exclusive use of integrating Oracle Primavera Prime Capital Plan Management with other Primavera Applications.
- Oracle Web Services Manager (OWSM) for the exclusive use of the protection of Primavera Web Services.
- Oracle Entitlement Server Basic.

Prerequisite Products

Install the following additional Oracle products to use Oracle Primavera Prime Capital Plan Management:

- Oracle Database Enterprise Edition and Oracle Partitioning
- Oracle Business Intelligence Publisher (or Business Intelligence Publisher for Oracle Applications) is required for users who create, edit, or run Prime Advanced Reports (includes report administrators and/or any user who will run or create BIP reports).
- WebLogic Suite (or WebLogic Suite for Oracle Applications)

Oracle Primavera Prime Risk Management

Restricted Use Licenses

The following restricted use licenses are included with your Oracle Primavera Prime Risk Management license:

- Primavera Gateway for the exclusive use of integrating Oracle Primavera Prime Risk Management with other Primavera Applications.
- Oracle Web Services Manager (OWSM) for the exclusive use of the protection of Primavera Web Services.
- Oracle Entitlement Server Basic.

Prerequisite Products

Install the following additional Oracle products to use Oracle Primavera Prime Risk Management:

- Oracle Database Enterprise Edition and Oracle Partitioning.
- Oracle Business Intelligence Publisher (or Business Intelligence Publisher for Oracle Applications) is required for users who create, edit, or run Prime Advanced Reports (includes report administrators and/or any user who will run or create BIP reports).
- WebLogic Suite (or WebLogic Suite for Oracle Applications).
- At least one of the following:
  - Oracle Primavera Prime Project and Program Management
  - Primavera P6 Enterprise Project Portfolio Management

Oracle Primavera Prime Project and Program Management

Restricted Use Licenses

The following restricted use licenses are included with your Oracle Primavera Prime Project and Program Management license:

- Primavera Gateway for the exclusive use of integrating Oracle Primavera Prime Project and Program Management with other Primavera applications.
- Oracle Web Services Manager (OWSM) for the exclusive use of the protection of Primavera Web Services.
- Oracle Entitlement Server Basic.

Prerequisite Products

Install the following additional Oracle products to use Oracle Primavera Prime Project and Program Management:

- Oracle Database Enterprise Edition and Oracle Partitioning
- Oracle Business Intelligence Publisher (or Business Intelligence Publisher for Oracle Applications) is required for users who create, edit, or run Prime Advanced Reports (includes report administrators and/or any user who will run or create BIP reports).
- WebLogic Suite (or WebLogic Suite for Oracle Applications)

Third Party Notices and/or Licenses

Required notices for open source and commercial software products or components distributed in Oracle Primavera Prime are identified below, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or readme files of the individual third party open source software.

Akka

Licensed under the ***Apache Software License, Version 2.0*** (on page 34) (the "License"); you may not use this file except in compliance with the License.

aopalliance.jar

Code is in the public domain.

Apache Chemistry OpenCMIS

OpenCMIS Client Implementation

Copyright 2009-2011 The Apache Software Foundation

This product includes software developed at The Apache Software Foundation (http://www.apache.org/).

D3

Copyright (c) 2012, Michael Bostock

All rights reserved.

Outbound contribution restrictions:

- The contributions must be newly created by Oracle employees and specific to the open source technology (e.g., no contribution of pre-existing Oracle code).
- The contributions must not introduce any new functionality beyond bug fixes and will not be of the nature which would require patent filing or other consultation with Patent Legal.
- The open source technology and the changes to be contributed must not contain or use either encryption algorithms or encryption libraries.
- The contributions must not include or reveal any Oracle or third party confidential or proprietary information.
- An outbound third party contributor agreement must not be required for the contribution (i.e., Oracle and/or Oracle employees must not have to sign a contributor agreement to make the contribution to the project.) Thus, the contribution must be made under the project's license as included in this approval.

Any outbound contributions are subject to the above limitations and Release Management operational requirements in effect at the time of contribution including: Development is responsible for maintaining a record of all code that is contributed, including the date of the Contribution and the method of delivery, and tracking the same in tracking tools and confirming does not contain any sensitive or confidential information that Oracle would not want to release to the general public without a fee.

Google Guava

Copyright (C) 2007 The Guava Authors

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1) Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2) Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3) Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4) Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
   a. You must give any other recipients of the Work or Derivative Works a copy of this License; and

b. You must cause any modified files to carry prominent notices stating that You changed the files; and

c. You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

d. If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5) Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6) Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7) Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8) Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9) Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

Where to Get Documentation

Complete documentation libraries for Oracle Primavera Prime releases are available on the Oracle Technology Network (OTN) at:

http://www.oracle.com/technetwork/documentation/default-2172536.html

From this location you can either view libraries online or download them to have local copies. We recommend viewing them from OTN to ensure you always access the latest versions, including critical corrections and enhancements.

Oracle Primavera Prime is configured to access its help system directly on OTN. However, a downloadable version of the Prime help system is also available on OTN if you need to download, deploy, and access a local copy.

The following table describes the core documents available for Oracle Primavera Prime and lists the recommended readers by role. Oracle Primavera Prime roles are described in the *Implementation Planning Guide*.

Installation

Title	Description
Tested Configurations	Lists the configurations that have been tested and verified to work with Oracle Primavera Prime. The network administrator/database administrator and system administrator should read this document.
System Architecture Data Sheet	Provides an overview of all the components in Oracle Primavera Prime. The network administrator/database administrator and the system administrator should read this guide.

Title	Description
Implementation Planning Guide	Explains planning your implementation and provides an overview of the installation and configuration process. The network administrator/database administrator and the system administrator should read this guide.
Performance and Sizing Guide	Provides an estimate of hardware and software requirements for deploying Oracle Primavera Prime. The network administrator/database administrator and the system administrator should read this guide.
High Availability Guide	Explains the necessary architecture and procedures for implementing high availability to the Oracle Primavera Prime environment using WebLogic clustering and Oracle Database Real Application Clusters (RAC). The network administrator/database administrator and system administrator should read this guide.
Security Guide	Explains how to handle security for Oracle Primavera Prime. Includes information about what files you should protect and how to handle authorization and authentication. System administrators and others concerned with security should read this guide.
Installation and Configuration Guide	Explains how to install and configure Oracle Primavera Prime using the Oracle Primavera Prime installer. The network administrator/database administrator and system administrator should read this guide.
Manual Deployment Guide	Explains how to deploy the application in WebLogic if you choose not to deploy it using the Oracle Primavera Prime installer. System administrators should read this guide.
Configuring Oracle Access Manager	Explains how to set up OAM and connect it to work with Oracle Primavera Prime. System administrators should read this guide.
Connecting BI Publisher	Explains how to set up your BI Publisher environment and connect it to work with Oracle Primavera Prime. System administrators should read this guide.
Connecting Oracle Enterprise Manager	Explains how to set up OEM and connect it to work with Oracle Primavera Prime. Describes the metrics you can view for your environment. System administrators should read this guide.

Title	Description
Connecting the Content Repository	Explains how to set up your content repository and connect it to work with Oracle Primavera Prime. System administrators should read this guide.

Administration

Title	Description
System Administrator's Post Installation Guide	Describes how to get started using Oracle Primavera Prime after you have installed and configured it. Complete the tasks in this guide before letting your users work with the application. These tasks include information about configuring your application administration users and system settings. The network administrator/database administrator and system administrator should read this guide.
Application Administrator's Guide	Describes how to set up Oracle Primavera Prime with useful and important data after you have installed and configured it. Complete most of the tasks in this guide before letting your users work with the application. These tasks include information about configuring security permissions and user groups; configuring your users' security settings and privileges; configuring partner users; defining custom fields and codes; defining general application settings; managing configurations; and setting up workspaces. The application administrator should read this guide.
Primavera Cloud Service Administrator's Guide	This guide describes how to configure and administer Primavera products hosted on the Oracle Cloud for industries. It supersedes all the other installation and configuration guides for Primavera products, since they are for on-premises deployments. Cloud administrators should read this guide.
Formula Scripting Guide	Explains how to use Groovy to create custom formulas for configured fields in Oracle Primavera Prime. Administrators should read this guide.
Error Message Reference	Provides additional information about error messages that you may encounter when installing and using Oracle Primavera Prime. Each message listing in this document contains the message statement, a probable cause of the message, and a resolution if applicable. All administrators and users who encounter an error that they cannot recover from should use this reference.

User Content

Title	Description
Capital Plan Management User's Guide	Explains how to use Oracle Primavera Prime to develop and monitor long-range capital plans. Project managers, capital planners, stakeholders, and anyone else who interacts with this application for the purposes of capital planning or project monitoring should read this guide.
Document Collaboration Extensions User's Guide	Explains how to configure and use WebDAV to access, preview, modify, check in, and check out documents in Oracle Primavera Prime from your desktop or browser. Anyone who wants to access Prime documents outside of the application should read this guide.
Report Writer's Guide	Explains concepts related to designing custom reports for Oracle Primavera Prime. Anyone who is responsible for designing custom reports for Oracle Primavera Prime should read this guide.
Risk Management User's Guide	Explains how to use Oracle Primavera Prime to identify project risks and analyze the impact of the risks on the project budget and schedule. Project managers and risk analysts should refer to this guide.
Schedule Management User's Guide	Explains how to use Oracle Primavera Prime to develop and manage a project schedule. Project managers and project schedulers should refer to this guide.
Scope Management User's Guide	Explains how to use Oracle Primavera Prime to plan and manage scope items required for a project. Project managers and cost engineers should refer to this guide.
Workflow Designer's Guide	Explains procedures and concepts related to creating and editing Oracle Primavera Prime workflows. Anyone who is responsible for setting up and maintaining Oracle Primavera Prime workflows should refer to this guide.
Data Dictionary	Defines fields used in Oracle Primavera Prime. All Oracle Primavera Prime users should refer to this guide if they need a field definition.

Help Systems

Title	Description
Prime Help	Explains how to administer and use Oracle Primavera Prime for capital plan management, risk management, schedule management, and scope management. Application administrators, project managers, capital planners, stakeholders, and anyone else who interacts with this application should read this help.
Administration Help	Explains how to use the Administration application to add application administrators, configure system settings, monitor license usage, and configure system announcements. The system administrator should read this help.

Integration and Programming

Title	Description
API Programmer's Guide	Describes how to invoke, use, and troubleshoot the available services and operations within supported environments. When you need specific information about the services and operations available, refer to the *API Reference*. Anyone who wants to develop applications that interact with Oracle Primavera Prime should read this guide.
API Reference	Provides a comprehensive list of all REST API services and operations available for use with Oracle Primavera Prime. Anyone who wants to learn about the REST API services should read this reference.

Where to Get Training

To access comprehensive training for all Primavera products, go to:

http://education.oracle.com

Oracle Learning Library

The Oracle Learning Library (OLL) provides online learning content covering Primavera products. Content includes whitepapers, videos, tutorials, articles, demos, step-by-step instructions to accomplish specific tasks, and self-paced interactive learning modules.

To access the learning library's Primavera content, go to:

http://www.oracle.com/oll/primavera

Where to Get Support

If you have a question about using Oracle products that you or your network administrator cannot resolve with information in the documentation or help, click http://support.oracle.com/. This page provides the latest information on contacting Oracle Global Customer Support, knowledge articles, and the support renewals process. For more information about working with Support, visit https://support.oracle.com/epmos/faces/DocumentDisplay?id=888813.2 to view **Support Tools & Tips**.

To get the latest information about Critical Patch Updates, visit http://www.oracle.com/technetwork/topics/security/alerts-086861.html.

Oracle Primavera Prime integrates with different Oracle applications; when you create a Service Request, be sure to open the request with the proper Support team. To ensure you reach the proper Support team, enter the correct product information when you create the Service Request. Each product has its own support line.

- Use the Oracle Primavera Prime support line when you are having installation, configuration, connection, or application issues related to Oracle Primavera Prime.
- Use one of the following support lines when you are having installation or configuration issues that do not relate to Oracle Primavera Prime.
  - Oracle WebLogic Server
  - Oracle Server
  - BI Publisher
  - Oracle WebCenter Content
  - Oracle Access Manager

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit http://www.oracle.com/us/corporate/accessibility/support/index.html.

Using Primavera's Support Resource Centers

Primavera’s Support Resource Center provides links to important support and product information. Primavera's Product Information Centers (PICs) organize documents found on My Oracle Support (MOS), providing quick access to product and version specific information such as important knowledge documents, Release Value Propositions, and Oracle University training. PICs also offer documentation on Lifetime Management, from planning to installs, upgrades, and maintenance.

Visit https://support.oracle.com/epmos/faces/DocumentDisplay?id=1486951.1 to access links to all of the current PICs.

PICs also provide access to:

- **Communities** which are moderated by Oracle providing a place for collaboration among industry peers to share best practices.
- **News** from our development and strategy groups.

- **Education** via a list of available Primavera product trainings through Oracle University. The Oracle Advisor Webcast program brings interactive expertise straight to the desktop using Oracle Web Conferencing technology. This capability brings you and Oracle experts together to access information about support services, products, technologies, best practices, and more.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.
